It allows diversification and variation in the relationship of uses, structures, and open spaces in developments conceived and implemented as comprehensive and cohesive unified projects.

12.2. USES

Any use permitted by right or as a conditional grant in any of the other districts of this Chapter may be permitted in the Planned Unit Development District, provided however, that no use shall be permitted except in conformity with a specific and precise development plan pursuant to the procedural and regulatory provisions established by this Chapter.

- A. **CHARACTER AND INTENSITY OF LAND USE.**
 In a Planned Unit Development District, the uses proposed and their intensity and arrangement on the site shall be a visual and operational character which:

 The width of street right-of-way, width and location of street or other paving, outdoor lighting, location of sewer and water lines, provision for storm water drainage or other similar environmental engineering consideration shall be based upon determination as to the appropriate standards necessary to implement the specific function in the specific situation, provided, however, that in no case shall standards be less than those necessary to insure the public safety and welfare as determined by the Village.
- D. **PRESERVATION AND MAINTENANCE OF OPEN SPACE.**
 In a Planned Unit Development District, adequate provision shall be made for the permanent preservation and maintenance of common open space either by private reservation or dedication to the public.

Damaged or destroyed buildings or structures shall be subject to the restrictions contained in Paragraph B of this section.

18.7. SPECIAL USE PERMITS

A. PURPOSE.

The development and execution of this Article is based upon the division of the Village into districts, within which districts the use of land and buildings, and bulk and location of buildings and structures in relation to the land, are mutually compatible and substantially uniform. However, there are certain uses which, because of their unique characteristics, cannot be properly classified as unrestricted permitted uses in any particular district or districts, without consideration, in each case, of the impact of those uses upon neighboring land or public facilities, and of the public need for the particular use at a particular location. Such uses, nevertheless, may be necessary or desirable to be allowed in a particular district provided that due consideration is given to location, development and operation of such uses. Such uses are classified as conditional uses.

B. AUTHORITY OF THE BOARD OF APPEALS AND VILLAGE BOARD; REQUIREMENTS.

- (1) The Board of Appeals shall conduct hearings and investigate applications as necessary to make recommendations to the Village Board. Special Use permits may be granted, modified or revoked only by Village Board.
- (2) The Board of Appeals, after a public hearing shall, within a reasonable time, make a recommendation to the Village Board regarding the application for a special use. Prior to making a recommendation, the Commission shall make findings based upon the evidence presented that the standards herein prescribed are being complied with.
- (3) Any development within five hundred (500) feet of the existing or proposed rights-of-way of freeways, expressways, interstate and controlled access trafficways, and within fifteen hundred (1,500) feet of their existing or proposed interchange or turning lane rights-of-way shall be specifically reviewed by the highway agency that has jurisdiction over the traffic way. The Board of Appeals shall request such review and await the highway agency's recommendation for a period not to exceed sixty (60) days before taking final action.
- (4) Conditions such as landscaping, architectural design, type of construction, construction commencement and completion dates, sureties, lighting, fencing, planting screens, operation control, hours of operation, improved traffic circulation, deed restrictions, highway access restrictions, increased yards, or parking requirements, may be required by the Board of Appeals upon its finding that these are necessary to fulfill the purpose and intent of this Chapter.
- (5) Compliance with all other provisions of this Chapter, such as lot width and area, yards, height, parking, loading, traffic, highway access, and performance standards, shall be required of all special uses.

C. APPLICATION FOR SPECIAL USE.

The notice must include the time, place, and date of the hearing and must be published in a newspaper of general circulation in the Village. The notice must also contain:

- (1) the particular location of the property for which the special use is requested by legal description and by street address, or if there is no street address, by locating the property with reference to any well-known landmark, highway, road, thoroughfare, or intersection;

G. DENIAL OF APPLICATION FOR SPECIAL USE PERMIT.

When a special use application is recommended for denial, the Board of Appeals shall furnish in writing to the Village Board, and to the applicant, those standards that are not met and enumerate reasons the Commission has used in determining that each standard was not met.

H. VALIDITY OF SPECIAL USE PERMIT.

Where the Village Board has approved an application for a special use, such approval shall become null and void within twelve (12) months of the date of the Village Board action unless the use is commenced, construction is underway or the current owner possesses a valid zoning permit under which construction is commenced within six (6) months of the date of issuance and which shall not be renewed unless construction has commenced and is being diligently prosecuted.

I. COMPLAINTS REGARDING SPECIAL USES.

The Village Board shall retain continuing jurisdiction over all special uses for the purpose of resolving complaints against all previously approved special uses. Such authority shall be in addition to the enforcement authority of the Zoning Inspector to order the removal or discontinuance of any unauthorized alterations of an approved special use, and the elimination, removal or discontinuance of any violation of a condition imposed prior to or after approval or violation of any other provision of this Code. Upon written complaint by any citizen or official, the Board of Appeals shall initially determine whether said complaint indicates a reasonable probability that the subject special use is in violation of either one or more of the standards set forth in Section 18.7(K), a condition of approval or other requirement imposed hereunder. Upon reaching a

positive initial determination, a hearing shall be held upon notice as provided in Section 18.7(D) above. Any person may appear at such hearing and testify in person or represented by an agent or attorney. The Board of Appeals may, in order to bring the subject special use into compliance with the standards set forth in Section 18.7(K) or conditions previously imposed by the Village Board, recommend modifications of the existing conditions upon such use and recommend additional reasonable conditions upon the subject special use. In the event that no reasonable modification of such special use can be made in order to assure that Standards (1) and (2) in Section 18.7(K) will be met, the Village Board may revoke the subject special approval and direct the Zoning Inspector and the Village Attorney to seek elimination of the subject use. Following any such hearing, the decision of the Village Board shall be furnished the current owner of the special use in writing stating the reasons therefore.

J. STANDARDS--SPECIAL USES.
